## LATEST NEWS

PRESS TELEGRAMS.

*The following epitome of the latest news by telegraph, from all quarters, is taken from our colleagues—*

Rosario, 6th

German war corvette Albatross has sailed.

Government has ordered the payment of six months' salary to the school-teachers.

Several new cases of carbuncle are reported.

Vessels for charter are scarce, and freights rising.

Heavy wheat arrivals.

Montevideo, 6th

Another rumpus! This morning, while the 2nd Cazadores were passing the Argentine Legation, an Argentine soldier flung away his rifle and rushed into it, followed by an officer and a sergeant, who tried to drag him out, but Mrs. Moreno, in the Minister's absence, protested so firmly that they withdrew, leaving the soldier behind.

The river steamer agents held a meeting to-day to decide on not sending their vessels into the Boca, owing to the heavy dues charged there.

Arica arrived from Liverpool and Vasconia from Bordeaux.

Very dull day in business.

## THE WESTERN CAMPS.

CHAPTER II.

Pergamino is one of the prettiest of our Provincial towns, and is distant by rail, from this city, fifty leagues. It has suffered much from the incursions of the Indians, and even to this very day there are numerous sheepfarmers in the districts of Lobos, Chascomus, and Dolores who regard Pergamino as beyond the Pale, and who have not the courage or the enterprise to mount their horses and visit camps so far out. This was our first visit to this now thriving country town. As we drove throught its streets, around its Plazas and along its lanes girded by maize and alfalfa chacras, our first impressions were most agreeable. The hotel is excellent, with neat roomy bedrooms up stairs. The railway station is remarkably attractive and compensates for the fact that along the whole branch there is hardly anything worthy of the name of a station to be met with.

On Don Miguel Duggan's estancia the station is as we stated in our last, built on wheels, and we very much dread the fact that the station master's on this new branch to the present sleep on 'recados.'

At Pergamino there is a branch of the Provincial Bank in the Plaza. The Church is a very respectable looking edifice. There are numerous large shops, and as the town will now form the terminus of the Western Railway for many years to come, we believe it will grow into a very important place.

The drive from Pergamino to Melincué is a stretch of twenty leagues through camps, pasturages, wire fences, chacras, maize fields, and even colonies. It took us so completely by surprise to find along this road such unequivocal evidences of industry, that it set us pondering to find the cause why in the rich and valuable inside camps of B. Aires there should be so little of the industry that here we discover on all sides.

Within a few leagues of Pergamino are numerous Irish estancias belonging to Messrs. Fox, Geoghagan, Duggan, Duffy, Langley, and others. The Duggan estancia, one of the finest properties of the North, and which formerly belonged to the late Don Ambrosio Lezica, now properly belongs to the Partido of Salto. Mr. John Fox is one of the finest samples of the old Irish sheepfarmers of the Plate, and more is the pity that we have not many others like him. In the infancy of one generation of our farmers he drove his flock of sheep from the South up to the Capilla del Señor, which was then considered as far out for the sheepfarmer as Italo is to-day. He founded one of the finest estancias at the Capilla, and with the keenest foresight when the flocks increased and the camp around became thickly settled, he mounted his horse and galloped out to Pergamino, where for a trifle, he purchased another magnificent estate. Time has won for him all that his ambition asked, and to-day the Locomotive plunges through his land, adding millions to its value. Mr. Geoghegan is another pioneer who merits our fullest praise, and these are the stamp of men that we would fain gather round us to prove equal to the new departure which this country is now taking.

Before arriving at the first post-house after leaving Pergamino, we drive through one end of the land of the magnificent Ocampo estancia. Some nine leagues of splendid camp all wire fenced, and stocked with chosen breeds of sheep, cattle and horses. Mr. O'Farrel who formed one of our party, and who is a rich sheepfarmer of the North, told us much of the enterprise and outlay of Mr. Ocampo on this lordly estate. We passed what we thought was the estancia house, so immense was the monte that surrounded it, yet it proved to be one of the puestos. We saw large fields of maize and alfalfa within the fiapendie and poplar fences; the sheep were blown by the wind close up to the wire fence, and we could well inspect the flock, in splendid condition and without the slightest signs of scab. Passing this property we pull up at the estancia of Señor Grondona, a large and important establishment. Here we changed horses. In one of the large galpones of this estancia are to be found horse-power machines for shelling and grinding corn, and cutting alfalfa. Mr. Fair, as we drove through the land, caught sight of some fine young Durham Bulls! The "hacienda" looked in splendid condition, and the establishment is very ably managed by Mr. Edward Grondona who kindly invited us into the house, which we declined.

The next property we come on is that of Mr Hamilton Langley. Four leagues of good fresh camp all wire fenced and rented to Messrs Bell and Bollard who have good 'rodeos' of cattle on the land. A few years ago Mr Langley would have been thought a madman if he gave two millions four hundred thousand dollars for this property. To-day double the money would not buy it, even were it put up at Judicial sale. The roads here about are wire fenced, either side, which seemed to us a great mistake, since it charged the lands with double expense, which, according to the rural code, might have been avoided.

Passing the next post-house, we come upon the estancia of an Irishman, named McCormack, who has rented the place to Mr Jacobs, an American. All the lands hereabouts are covered with mixed grasses; high, rich green pasturages, meet the eye on every side—there is nothing of the bare burned-up lands of the inside 'Partidos', and people may talk as they like and praise as they will these fine inside lands which support when there is grass on them, 30,000 sheep to the square league, with 2 or 3,000 cows for the 'llapa,' but give me, in preference those mixed lands outside that resist a dry summer and where there is always grass for the cattle to feed on, even though it be 'paja' or 'pasto fuerte.' Twelve leagues from Pergamino we reach the Fortin Mercedes or Villa Colon, but before arriving at this point we have passed through the estancia of Mr Michael Duffy, the deservedly popular Juez de Paz of the Fortin de Areco and who, also, merits the wreath of the pioneer for having staarted an estancia, built a large house, and planted a fine Monte in this district when few save a Duffy or a Fox had the courage to purchase such lands. Mr John Duffy, who is perhaps one of the oldest Irish sheepfarmers in the Plate, still lives on his fine estancia in the Fortin de Areco; 30 years ago he drove his flocks up from Ranchos in the South to the Fortin de Areco, which was then farther from Buenos Aires than the Gran Chaco is to-day; the indomitable spirit of the old man is perhaps the richest heritage of his much esteemed son who has now another fine estancia stocked, settled and built on these Pergamino camps. Mr Michael Duffy and his compeers march with the times and swim with the current.

At the Villa Colon we stopped at the post-house, which presented more the appearance of a European farm than anything else. Large ricks of hay, fields of alfalfa, tall smiling chacras of maize, pigs and poultry, geese gabbling round the large pool, a veritable farm-yard at the rear of the house. Gracious goodness where are we? I exclaimed. Can this be the South American camps? A robust jolly looking Italian invited us into the house, where tea with milk and fresh bread were served. We sat on chairs, not cow's heads, and we opened tins of preserved meat in preference to the customary post-house 'churrasco.'

There was a certain air of rude comfort, plenty and prosperity around. It was a sheep puesto, yet the maize field hid from us the "chiquero"; the cattle and horse corral were screened by the high ricks of hay. The puestero was in every sense a farmer, and had we at every sheep puesto do the estancias in the rich inside partidos the same productive power that turned this outside post-house into a smiling European farm how immensely different would be the position of this country? On these outside lands the farmer or puestero must needs plough and sow since, as a rule, his cattle and sheep are few and their yield is insufficient to keep a family. It may be that we err, but we vote for the outside land and the men who have the grit to settle on it.

## THE WESTERN RAILWAY OF SANTA FE.

The following letter from the 'concessionaire' of this Railway, the well-known Mr Casado, banker of Rosario, will be read with much interest by all those who own lands on the Venado Tuerto, at Loreto, Melincue, &c. This new RR. now in course of construction, will not only bring those lands within easy distance of Rosario, but, as it appears now, will connect them with B. Aires by means of the Clark Transandine Railway. Happy are those who two years ago bought the Venado Tuerto lands and who now find their properties united to the two principal ports of the Republic. We could have wished this news did not come until after the auction of the Loreto lands, as the great aim should be to have poor, not rich, men the buyers. One hundred leagues in the hand of one man, no matter even if he be an editor, is impolitic; but one hundred leagues of land cut up and owned by two hundred farmers means prosperity for the whole country.

The following is Mr Casado's letter:—

"Rosario, Feb. 26th 83.

"Edward Casey Esq.

"Buenos Aires.

"My Esteemed Friend,

"I received yours of the 23rd. It is my firm resolution to continue the F. C. O. S. to the South of Melincue to join Clark's Railway. The Loreto lands will thus be united with B. Aires and Rosario.

"The rapid progress in the construction of the first Section is a guarantee that my purpose will be a reality. There are 20 kil. of earthwork, the sleepers and rails are ready and in a fortnight more the laying of the rails will begin. The railway will have a branch line into the Custom House, a very expensive work, but of great importance. On the 15th of April the waggons will be on the line opposite the Custom House, ready to receive cargo direct from the vessel for all the Provinces, thus avoiding the use of carts. The works are very forward, and you may depend they will be carried through. I do not know the Hinojo, but from what I tell you, you may be able to judge how near the line will go.

"Making use of your verbal authorization, I beg to enclose the Company's receipt for the 5th and 6th instalments of the shares which you took, and which I have paid, and I have drawn on you for $1,000 favour of the Provincial Bank of Sta. Fe.

"Wishing you success in the sale of your lands.

"I remain
"Yours truly
"*Carlos Casado.*

"P.S.—The rolling stock has been shipped in New York on the 3rd of January; the rails are coming by Lamport and Holt's steamers. I have Bills of Lading."

## LONDON LETTER.

(*From our own Correspondent.*)

HOME NEWS.

January 26, 1883.

Great hopes are founded on the evidence of informers to be produced next week, when the twenty Dublin conspirators are again arraigned. The adjourned inquiry is to take place at Kilmainham Court-House, to avoid the risk and inconvenience of taking so many prisoners through the streets to the courts. Farrel, the informer, is described as a young man of the ordinary Irish type—freckled, fair, not to say foxy—and with a shock head of hair and a half-developed nasal organ, a long upper lip and speckled eyes, or, as I should guess, those light, blue, laughing, sunny eyes, which in women, at least of the Celtic type, Scotch or Irish, are divine. Farrel's house is guarded by policemen in consequence, so they say, of threats of violence against, whom do you think? his mother and sisters! Long knives have been found of the pattern used in the assassination of Lord Frederick Cavendish and Mr. Burke, and one nest, at least, of Fenian assassins, it is imagined, has been uprooted in Dublin, and the discovery may lead to the solution of the Phœnix Park mystery. Should even the existence of assassination societies be proved it will show one thing, that Mr. Forster and the English Government in general have always been on the wrong tack. What was wanted were not Coercion Acts and Curfew laws for the whole Irish nation, but—detectives.

The Fenians, or Nationalists, or assassins, or whatever they may call themselves, were comparatively small groups of desperate men, recruited from the Irish slums and shanties of the United States, and were as bitter against Mr. Parnell and the Land League as against English rule—and, indeed, as is the custom amongst the Irish, they were more bitter against their own countrymen. But, and here is the point, the Anglo-Irish aristocracy, the landowners who goaded the Government, took the chances of their lives, and thought most of their properties and the remains of their feudal influence. Hence, they directed the arm of the Government against the Land League, making use of the assassination societies to frighten the English public, grossly ignorant of Ireland and the Irish, into the suppression of agrarian agitation. This is a strong accusation, but history will confirm it, and Lord Hartington's somewhat truculent speech, in favour of coercion in Ireland, demonstrates the impossibility of the landed interest in England separating itself from its fellows in Ireland.

It will soon be a question of extending the franchise in Ireland as in England. But the late severe shock which the Government has received in the election for Mallow of Mr. O'Brien—a suspect and under bail—by a majority of two to one over the Castle candidate, the Solicitor-General, Mr. Naish, will make the Whig element in the Cabinet chary of experiments in Ireland.

Only last night Mr. Forster at Leeds said that, admitting the Irish were not as educated and not as prepared for the exercise of the franchise as the English and Scotch, nevertheless, "he believed there was only one direction in which they could hope to settle the Irish question, and that was making Ireland one country with England" (cheers.) "The only way," he said, "to meet Home Rule and the dissolution of the Union, was by treating the Irish people as we should treat ourselves" (renewed cheering.) But what a comment on Mr. Forster's own blundering in Ireland are these cheers? which represent the true feeling of the English people, separated from that of a class whose cup of iniquity is nearly full. At the conclusion of his speech Mr. Forster said—"What was wanted in Ireland was the development of municipal life, but it would be little short of madness to put the administration of the police into the hands of Irish municipalities."

How absurd. How can we develop their municipal life and deny them the administration of their own police? Like all born Englishmen, Mr. Forster can never see a whole question. He gets at it bit by bit. He has got as far as the police. He will get over them in time, when the land laws in Britain and Ireland are made just.

The Skye crofters are in arms—the men with sticks and the women with aprons-full of stones. The police dare not go near them. Lord A. Campbell writes from the hotel there to say we had better give it up. Now, bedad! Would Mr. Forster not give the administration of the police in Skye or in Scotland to the crofters or the Scots? Is it not the same question? That is to say, is not the police question and the whole concern our fault? The fault of vile laws made by the *beati possidentes.*

There is an immense mass of stuff to write about: Mr. Gladstone's recovery, the Salvation Army, the Brazil loan, four millions brought out by Rothschild and rather hanging fire, Dr. Whitmarsh, the death of Gustav Doré and of Flotow the composer, the silver wedding of the Crown Prince and Princess of Germany, the Princess Louisa cheered at Charlestown on embarking for Bermuda; and, above all, the frightful collision between the German steamer Cimbria of the Hamburgh and New York line, and the large Hull collier Sultan, off the mouth of the Elbe, and resulting in the sinking of the Cimbria, and the loss of between 400 and 500 lives. That question is to be tried in the German courts, and will be again referred to, but the rest, for the most part, must be passed over, for we are again with one steamer to the River Plate this week, and not a mail steamer, her letters leaving London at 5.30 this evening.

I must draw your attention to Mr. Goschen's speech at the annual meeting of the Chamber of Commerce. He dilated on the blessings of accumulated capital in this country, which, in spite of the equalisation of profits by electric telegraphs, and the greater share or dispersion of trade amongst the commercial rivals of England by the foreign-owned great lines of steamship and by the inconvenient piercing of the Isthmus of Suez, still will render England the "Queen of Commerce and the Mistress of the operations of the world." What do you think of that for a city edition of "Rule Britannia?"

It is curious that, knowing as we do, Mr. Goschen's ostensible opinions on the late Egyptian question, he should endorse the opinions of Mr. Norwood, the ship-owner, that the Suez Canal has, on the whole, *not* had a tendency to increase the commerce of England, and it is, in some respects, detrimental to her interests.

Surely, Mr. Norwood means relatively, that is to say as a shopowner, he is jealous of other countries having so much advantage, even admitting that our own is great, otherwise having sent Lord Wolseley to keep the Canal open—now that the French Republic is in difficulties—we had better send him back again to shut it. Surely, great shipowners are nof necessarily great philosophers, but *pulperos siempra.*

## THE PHŒNIX PARK ASSASSINATIONS.

STARTLING STATEMENTS.

Some precise information has been obtained by the *Freeman's Journal*, which indicates the character of the 'details' that Mr Murphy, Q.C., at the close of the examination on Saturday last of the prisoners now in custody charged with conspiring to murder Lord F. Cavendish and Mr Burke and other Irish officials, stated the Crown 'hoped to be in a position to present' when the hearing was resumed on (Saturday) to-day. When Mr Murphy made that qualified announcement there is reason to believe he contemplated other evidence beyond the testimony of a third informer who had placed his information at the disposal of the Executive authorities. That informer had been only recently secured—he is not, it is stated, one of the twenty-one persons who occupied the dock on last Saturday—and his evidence will not go the length of describing the actual commission of the dreadful crime; but it has transpired that, having been a prominent member of the Fenian organisation, he will mention the names of certain persons whom he will declare were detailed to carry out the murder. The Criminal Investigation Department has made very extensive inquiries in the hope of discovering a gentleman who will be produced to supplement that informer's story by identifying three persons whom he believes he witnessed loitering near the scene of the murders two or three hours before their perpetration. When the magisterial inquiry was last proceeding counsel for the Crown had not before them the results of an inspection of the twenty-one prisoners by this gentleman. That inspection has since been made in Kilmainham Prison, and considerable importance is attached to it. The manner in which this gentleman's evidence has been secured is extraordinary. On the first three days of last January the following strange advertisement appeared in the *Freeman's Journal*:—

The gentleman who was invited to skate on the Viceregal-lodge pond some winters ago, and who related that incident to some parties at the Polo Ground, Phœnix-park, on the evening of 6th May last, is requested to communicate with the Assistant Under Secretary for Police and Crime, Dublin Castle. Any of the gentleman's friends who know of the fact of his having been so invited to skate will please draw his attention to this advertisement lest it escape his notice.

The explanation of the above advertisement is this:—On the afternoon of May 6th, the date of the murder of Lord Frederick Cavendish and Mr. Burke, the gentleman above referred to attended a polo match in Phœnix Park, and there stated to some of his friends that there was no difficulty in getting permission to skate on the Viceregal-lodge pond. This is the incident referred to in the opening and closing words of the advertisement. Subsequently, when the Park assassinations were the general topic of conversation, he mentioned at the Viceregal-lodge that on the afternoon of May 6th, while waiting for the commencement of that polo match, he observed a car near the clump of trees beyond the scene of the murders, that there were six persons loitering about, that he spoke for a few minutes to three of them. This statement was made several months ago. It was communicated to the police, and the description which he furnished of the appearance of those three men was inserted in the "Hue and Cry." It appears, however, that the police inadvertently did not take the gentleman's name or address; and when the private investigations by Mr Curran at the Castle began to result in some disclosures, it was considered necessary to discover his whereabouts. Hence the advertisement. Some of his friends who had been at the Polo match observed the advertisement and brought it under the gentleman's notice, who immediately communicated with the Under Secretary. He has been taken to Kilmainham, and has, it is confidently stated, identified an outside-car, belonging to a man frequently mentioned of late, as the vehicle which he observed near the Polo Ground on the afternoon of May 6th. The prisoners were then brought into his presence, and it is further stated that he identified two of them as being some of those to whom he spoke at the same place on that afternoon. It is alleged that the appearances of those prisoners correspond with the descriptions that appeared in the "Hue and Cry." This is the evidence which, in addition to the informer's, the Crown will probably produce on Saturday next bearing on the murder of Lord Frederick Cavendish and Mr Bourke.

Supplementary to the statements made by the approver Farrell on last Saturday week, it is believed that evidence will be given alleging a plot for killing Mr. Forster between Chester and Holyhead during some of his journeys from London to Dublin. The police are making inquiries throughout America in the hope of discovering the whereabouts of Rankle, who was mentioned by Farrell in connection with a plot to murder Mr Forster at the King's-bridge.

The authorities in Dublin hope to obtain material assistance in the conspiracy prosecutions from Newcastle-upon-Tyne. This town possesses a very large proportion of Irish inhabitants, and it was always one of the chief centres of the Fenian movement in England. For the past week two officers from Scotland-yard, assisted by an Irish detective, have been making inquiries in Newcastle, the result of which it is not improbable may come to light on Saturday next. It is even rumoured that the authorities meditate some fresh arrests in that quarter, but they are, of course, extremely reticent as to their intentions.

## LATEST FROM MENDOZA.

(*From our own Correspondent.*)

IV.

February 26th.

All the forces which joined the expedition against the 'indigenos' in the far south, under General Villegas, seem to have been equally successfull and it is truly surprising to read how rapidly and with what continuous favorable results all the different operations have been carried out and that with, comparatively speaking, so small a body of men. It would seem that one division after another has gained a continued series of victories, with very trifling loss on their side, after reaching the territories occupied by the various tribes of hostile Indians. In all this an active and honorable part has been taken by the division raised in the Cuyo provinces, which has been acting in combination with the General in Chief, under command of Colonel Dn. Rufino Ortega. As already mentioned, this energetic officer has returned to Mendoza, leaving Comandante Pabrada in charge of his battalion; this latter named officer has also distinguished himself on several occasions, and it is probable his name will appear on the list of those proposed to be raised to the rank of Colonel, a distinction very well deserved! He has been acting in conjunction with Major Ruibal, whose letter containing a graphic description of one of the many serious skirmishes which have lately taken place in Quebrachas on the Andes, it was pleasant to find translated in the columns of the *Standard* of 14th inst. It is understood that in view of the brilliant results already obtained, though these hardly yet reach the *Standard* point of no more Indians, the War Office has ordered the return of the main body of the troops which have been engaged, leaving however a considerable force, under command of experienced and energetic officers, to carry out during the next autumn and winter the plan of establishing a line of new forts to stretch south beyond the Nahuel Huapi; at the same time they will find plenty of occupation in scouring the 'quebradas' of the Andes and other points known to be the favorite haunts of the Indians. Seeing that such a considerable number of Caciques, with part of their tribes, have escaped all pursuit for the present, it would not seem advisable to reduce the force now in the field to any great extent, as it must require a considerable body of men to guard, not only the long line of frontier forts, but also the numerous deep gulches or ravines, a 'retaguardia,' which serve as passes and hiding places to the majority of the tribes of Indians who are in the habit of making inroads on the settlements south of the Planchon pass, down to the Laguna Nahuel Huapi.

The Mendozino public have received with considerable satisfaction the news that the National Government has at last ordered a thorough investigation into the affairs of that much-illused institution, our Escuela Agronomica. The naming of a National Accountant, accompanied by another commissioner, for the purpose of overhauling the accounts and general management under the late directorship of Señor Vasquez de la Morena (worthy successor to Sr. Roque-Sauz) would seem to indicate that some interest will now be taken, and proper enquiries made in this most disastrous affair. After the enormous sum of money spent by the National Government on the 'quinta,' it would indeed be most sorrowful to find, as many well informed persons think is likely to be the case, that this establishment, which could have been made to produce such advantageous results, not to Mendoza only, but to the nation at large, should now be wound up, owing solely to the fact that a few unprincipled outsiders have abused the confidence reposed in them by the Government. Besides, a general reformation of the system hitherto adopted could so easily be carried out, by simply separating the financial board from the general Directorship, the one controlling the other to a certain extent and both being under the monthly supervision of the "Comision provincial." Indeed it is difficult to comprehend how the Government can have been led into acting hitherto so unadvisedly, intrusting interests of such transcendant importance to foreigners, who with pretentions to great acquirements, have not only utterly failed in carrying out the object for which they were engaged, but have on the contrary purely made the institute serve their own private interests, and that in the most scandalous manner. It remains to be mentioned that the naming of a new "Comision Provincial" has created much surprise here, in as much as the very fact of the former commissioners having proved their zeal and effectiveness by denouncing the mal-practices in use so soon as discovered, one would think should have been cause sufficient to induce the National executive to request them to continue in their functions, instead of placing them in a false position, as is the case to-day!

The article published in the *Standard* of 18th inst. and entitled "Sunshine in the Interior," on being superficially translated to some of our prominent citizens caused them considerable amusement. I's not all gold that glitters; and it is so easy to make plausible statements on paper, which shew magnificent results, without the positive existence of any such results, that it is not to be wondered at the *Standard's* vision should have been dazzled by the glowing colors with which our Governor's speech is so plentifully illuminated. That Mendoza is making rapid strides in advance and, by gradually developing it numerous industries, is reaching a point of prosperty and well being before unknown, is an unquestionable fact, but this is most certainly not particularly due to any acts of the present Government; the real fact is that our geographical position has been, and until quite recently, from every point of view an unfavorable one, being almost completely separated from the rest of the civilised world; this position is now gradually undergoing very important amelioration, principally due to the near approach of those facilities for traffic and speedy communication with the coast, which have until now been utterly wanting! The impulse lately given to every class of industry is making itself felt in all directions, and this impulse is irresistible, be the Government good or be it bad! The almost inconceivable fertility of our soil, the natural facilities we have for carrying out irrigation to the fullest extent, combined with the magnificent climate we enjoy, and the industrious habits of our inhabitants, must necessarily in the course of time make this province second to none out of Buenos Aires. Once the railroad completed, and with a free flow of foreign immigration and corresponding introduction of foreign capital, for the full development of our numerous natural industries, there is no saying to what a point of prosperity this beautiful country may arrive. To return to the starting point on this subject, it may be asserted with considerable confidence, that so long as we have internal peace under a liberal Government, like our present one, it's a matter of very secondary importance as to who governs the province. The change actually going on in the City of Mendoza is a most notable one; a very considerable number of really palatial private residences, built on solid foundations, are actually in course of construction, and certainly at no period since the great earthquake of 1862 has anything of the kind been witnessed. Within a year or so, when the two new churches, now rapidly approaching completion, adorn the two public squares on which they are situated, and the numerous private houses are also making a show, combined with the many general city improvement going on, Mendoza may fairly lay claim to be the first provincial city of the Republic.

## A NEW TORPEDO.

Each great European war is marked by the introduction of something novel in the way of weapons, projectiles or tactics, and the next struggle, whenever it takes place, and whether the parties to it be France and Germany, or Austria and Russia, is altogether likely to present features of unusual interest to the student of military progress. The French having constructed a formidable series of frontier fortresses that would take too much time to reduce by existing methods, the Germans propose to smash them to pieces by throwing dynamite shells into them from ballistas or catapults or similar engines of classical or mediæval origin. while the Austrians have invented a land torpedo of much promise. During the Dalmatian insurrection last year two officers and ten men blocked a pass in seventeen minutes by laying down fifteen of these flying mines, and sixty men could in twenty-five minutes establish a line of them a mile in length. By way of protecting an exposed pass, or one that has been suddenly seized, or of rendering a besieger coy about advancing upon a fortified place, the Zubowitz torpedoes ought to prove effective. They will be especially formidable to the Austrian prisoners, to whom a practical enemy will at once depute the exciting task of removing them.—*Exchange.*

## THE WESTERN CAMPS.

To the Editor of the *Standard*,

Dear Sir,

Having read in your paper Mr. Casey's long letter about the Loreto lands, and taking a great interest in the subject, allow me to state my experience as regards refining "pasto fuerte." In the time of the Paraguayan war the only idea of refining land about here, Cañada de Gomez, was by stocking it. I have seen scores of leagues so refined, but at what a cost! The stock was decimated year after year. That idea is now exploded among practical men. But if some of the sheepfarmers of Buenos Aires would take the trouble to come up here and see what can be done in the way of refining "pasto fuerte" with the plough, they would no longer pay impossible rents down there, but buy land such as the Venado Tuerto or Loreto and refine it themselves. This has can be done and has been done much cheaper even than what Mr. Casey stated in your paper a while back.

Some of the best 'alfalfa' I ever saw was grown on land ploughed once, 'pasto fuerte.' The land was allowed to rot for eight months, harrowed fine and sown, and gave five heavy crops per annum. To refine land for sheep I should plough with a double furrow plough and four bullocks, four to five inches deep, leave it for 6 or 8 months, then sow it in wet weather with a mixture of grass seeds such as 'trefoil' 'gramilla' 'cardo,' etc., to which I should add a little 'alfalfa' and wheat siftings, which consist of barley, oats, etc. cleaned from the wheat and can be bought very cheap at any wheat colony. I sow it with alfalfa and it does excellently well for fattening cattle and sheep.

| | |
|---|---|
| Cost of ploughing per square.. | $ 1.00 |
| Cost of seed.................. | 1.00 |
| Harrowing..................... | 50 |
| | $ 2.50 |

This estimate may seem low in B. Aires, but it has been constantly proved practicable up here. For instance a peon will plough half a square a day for 4rs. Bolv. paper, say, $32cts., then there is his food, say, $10 cts. Seed such as the above has been sold in Rosario at 4rs. Bolv. per arrobe, and 2rs. to the square is sufficient for grazing purposes. The secret afterwards is not to overstock, and to give each paddock a rest and let it seed again. In this way you can turn 'pasto fuerte' into excellent sheep camp, as may be seen on almost every estancia in this neighbourhood.

So my advice to the sheepfarmers of Buenos Aires who find themselves getting crowded is to buy 'pasto fuerte' camp and turn it into sheep camp by means of the plough, as every estanciero in this neighbourhood is doing.

I enclose my card, and beg to remain,

Yours truly,

*Practicus*

## EDITOR'S TABLE

Although summer is drawing to a close, yesterday was a roating hot, coats-off day. When the rain is to come is the problem. The phases of the moon seem to have no effect on the weather now. Our thermom. marked 90 Fahrt. in the shade yesterday. Barometer very low.

A little knowledge (especially of Scotch) is a dangerous thing. In referring yesterday to the presentation gift to the Rev. Mr. Gebbie, we wished him in all good faith a pleasant stay in the *land o the leal.* Now, as we have since learned that this expression is the Scotch for *Heaven*, our wishes must have seemed rather superfluous, if not double-edged. The Rev. gentleman will, we doubt not, finally reach the *land* in question, but we hope it will be a long time before he starts for it.

Owing to the system of monthly sailings adopted by the steam companies in England, we are now going backward with news from Europe instead of forward. The Congo brought English papers of 5th February a week ago; the Maskelyne brought 3rd Feb., and the Vandycke now brings the 27th of January. Perhaps to-morrow we may receive papers of New Year's or Christmas Day. However, we are equally indebted to the Captains and Agents of all steamers who kindly supply us with papers, old or new.

The Maskelyne had fearful weather on her voyage out, especially from Lisbon to Madeira. The sea and wind were tremendous, the passengers all kept below, the captain's cabin door boarded up to keep out the sea, and for six days Chevalier Hairby had to get in and out through the window, but no casualty occurred. The famous Professor Keith of Edinburgh has arrived in the Maskelyne, on a tour, and we feel great pleasure in welcoming to the Plate such a distinguished visitor. Professor Keith was the first man that ever took chloroform, and was formerly a partner of the celebrated Sir James Simpson.

The time for paying Patente Tax in the city will expire on the 15th inst., and then for the legal "multa" for "morose debtors." Tax payers in general are in a decidedly morose mood this year, owing to the great increase in their burdens.

The Rev. James Smith will preach on Tuesday next at 11 a.m. at the Livingstone estancia, Lobos district.

It appears that Mr Bateman C.E. and his representative here are of different opinions as to increasing the supply of Pipe Water before the Drainage Works are finished. Mr. B. says it can be done, and Mr Nystomeyer says it cannot "Doctors differ and patients die."

The Municipality has a proposal to repair the Cabildo clock and put new dials on it, the process to last two months and cost $26,000 m/c. One would imagine that such a simple job could be done in a fortnight.

There is a place in Calle Corrientes where "Lessons in Duelling" are given, almost next door to the Comisaria. This is a splendid but queer country.

There was a gay wedding on a well-known Gualeguay estancia on the 2nd inst., when the Rev. James Smith of this city united in the bonds of wedlock Mr. William Livingstone, and Miss Jessie Robson, daughter of the well-known estanciero Mr. Peter Robson. The wedding feast was most sumptuous and very largely attended. The happy couple went to Santa Fé for the honeymoon. We sincerely wish them every happiness.

The *Tribuna Nacional* had a good leader yesterday advocating the advantages of more British capital being invested in stock-breeding in this country.

We have been favoured with a copy of Lieut. Beccar's A. N. eloquent defence of Lieut. Lira, A. N. at the recent trial by court-martial of the latter officer, for inflicting illegal punishment. The pleading was splendid, and we are not surprised that the accused officer was acquitted with flying colours. Lieut. Beccar is as good a lawyer (not a sea-lawyer) as he is a sailor, and we congratulate him on his success.

The highwaymen are again at their old game in the suburbs. Eight Basque milkmen were offered the choice of their money or their lives near Barracas Bridge some days ago, at dawn. They choose their lives.

The Paraná papers report an atrocious murder and robbery in the camps there, victim a man named Cabrera. A police sergeant was shot dead in trying to capture the murderers.

The funeral services for the late Madame Florinda Torres de Fernandez were celebrated at the Merced Church yesterday, which was crowded with the elite of Buenos Aires. The church was rigorously draped in mourning, and the catafalque crowned with flowers. Amongst the large crowd of families that attended were the following:—Alvear, Lanus, Guerrico, Frias, Riestra, Sanchez, Lainez, Martinez, Campos, Lumb, Rodriguez, Yanez, Jose Font, Juan S. Fernandez, Frias, Green, Becu. Marco del Pont, Iturriaga, Guerrico, Lainez, Sanchez, Roseti, Moreno, Zavalia, Torres, Salas, Matienzo, Viale, Maldonado, Alvear, Dr. Costa, Juan A Garcia, Pico, Correa, Joaquin Montaña, Molina, Mitre, Jose Ocampo, Pedro Acebal, Thwaites, Rufino de la Serna, Harilaos, Mulhall, Neild, Avellaneda, Corti, Leslie, Pollinini, M. Ocampo, Heimendahl etc.

Excellent news! The Minister of the Interior has ordered the new territory between the Limay and Neuquen to be surveyed and cut up for distribution to new settlers, under the Colonization Law. In a year or two we may expect to be invited to a trip down there, similar to the Loreto trip last week.

The funeral of the late Mr Michael Barry was largely attended yesterday afternoon. A long string of carriages, with the many friends of the deceased, left the Calle Ituzaingo at four o'clock for the Recoleta. Amongst those present were Messrs. Carroll, Ramsay, P. Brown, S. Peters, T. Sheil, Quinn, Mulvanny, Summers, and Dr. W Galbraith. The curate of the Recoleta officiated.

A deficit, or a 'desfalco,' (two different things) has been discovered in the Municipal cash box of sweet Lomas, to the tune of 270,000 of the best paper dollars. The *Prensa* says the business is an old one.

We are glad to see that the question of expropriation of part of Mr. Unzue's camp near Mercedes for the Transandine Railway has been arranged by the Company paying him 30,000 m/c.

They are hewing down and selling trees at La Plata. A lot of Eucalyptus was sold the other day for $3,500 m/c. We thought shade was badly required down there. We hope the woodman will spare all the trees he can in and near the new capital of the province.

The theatrical performance for the sufferers by the inundations in Germany will come off on Saturday evening at the Club Germania. The pieces selected are of great merit, and rehearsals are going on every night; a good entertainment may therefore be expected.

We had the pleasure of a visit yesterday from Mr. Lagier, a Swiss gentleman of capital, who has come out to explore our camps, with the view of purchasing an estancia and settling here. He informs us that all the Anabaptists in Switzerland are thinking of coming to South America, owing to their religious objection to be soldiers under the conscription, which prevails in free Switzerland as severely as in Germany. The Swiss are splendid settlers, and Mr. L.'s statement should be noted in the Immigration Office.

A lady has just married a gentleman who was a tolerable poet. One day sitting alone with him, she said—"Come, my dear, you write upon other people, prithee write something for me; let me see what epitaph you will bestow upon me when I die." "Oh, my dear," replied he, "that is a melancholy subject; prithee, don't think of it." "Nay; upon my life, you shall," adds she; "come, I'll begin—"

"Here lies Bid!"

To which he answered—

"I wish she did!"

The love of a pure and innocent female soul is often the guardian angel that guides a man's steps to the best actions of his life.

The *Diario* gives a long account of our friend Mr Andrews, the British tourist, now with General Villegas's expedition Our colleague generally makes some slip when persons or things English are concerned. Mr Andrews is neither a Knight nor a Baronet; but a London barrister. Our colleague has mixed up the significations of the words Baronet and Barrister; or is it merely that "pous asinorum" for all foreigners—the difference between Sir and Mr?

A Montevidean paper mentions that the oldest English resident of the Plate, Dn. Juan M. Gowland, celebrated his golden wedding the other day. We hope the esteemed couple may live to celebrate their diamond nuptials.

Mrs Roca and family arrived from Cordoba on Monday. His Excellency the President of the Republic went to Campana on Sunday to meet them, and slept at Mr Edward Costa's estancia. President Roca was surprised at the immense improvement in the place since he last was there, and was particularly interested in the building for the River Plate Meat Company. The President's house was crowded with visitors yesterday to welcome Mrs Roca on her return.

## MERCY TO THE SAVAGE.

B. Aires, March 6th 1883

To the Editor of the *Standard*

Sir,

Should we understand as subjection of the savage and protection for his life and property, which 'Æquitas' mentions in to-day's issue, the connivance of the Chilian authorities in the raids on our frontier and participation in the spoils thereof; or should these expeditions be looked on in the light of commercial ventures merely, and as such deserving of the encouragement and countenance of our worthy and enterprising neighbors?

## ITALIAN AND GERMAN SEAMEN.

No country of Europe, save Great Britain, it is said, has so many sailors as Italy. The mariners in the Mercantile marine are liable to conscription for the navy in war time, and in 1879 their number was no less than 167,282. France at the same time had on the rolls only 94,133 men, including in that total every person on sailing vessels, many of which were small fishing smacks, steamers, pleasure yachts and river craft. Germany in 1880 had on the rolls only 40,289 men: but Germany's strength is not on the ocean, though her merchant fleet, for one recently established, is of creditable size. The largest draft in Italy for mariners, in case of a protracted war, would fall on the vicinity of Naples.

## Ayer's Hair Vigour

(A DESIDERATUM)

For restoring the Natural Vitality and Colour of the Hair.

Prepared according to scientific and physiological bases with the object of bettering the condition of the hair, it stimulates the enfeebled glands of the scalp into healthy action, arrests the falling of the hair and promotes its luxuriant growth; rendering it soft, youthful and glossy.

This excellent preparation, the best and without doubt the only one as a remedial agent for the many defects and diseases to which the hair is subject, calls for and merits the most serious attention of all those who have had the misfortune to lose partially this most beautiful and natural ornament. AYER'S HAIR VIGOUR employed intelligently has obtained really surprising results. Faded or grey hair it restores to its original colour; and lost hair is often, but not always, reproduced.

It has always PREVENTED FALLING of the hair; whilst as a dressing ladies say it is the most agreeable as it is the most beneficent. Containing neither dye nor oil, it does not soil the finest cambric.

## The Rev. Mr. Smith Testimonial Fund.

At the General Meeting of St. Andrew's Presbyterian Church, Buenos Ayres, held on the 31st January, 1883, attention was called to the near approach of the time when the Rev. James Smith's official connection with the Church and people of Buenos Ayres would cease. The propriety of some manifestation being made by the Community on this occasion, to mark its appreciation of a life's work, having been mooted and unanimously recognised, it was resolved that such manifestation should assume the form of a pecuniary gift to the Rev. Gentleman, and a Committee was at the same time nominated with the view of carrying such resolution into effect.

In pursuance of this resolution, the Committee beg to inform the Community who sympathise with them in the matter, that Subscription Lists for signature will be found at the undermentioned places.

Other Lists will be forwarded to some of the outlying districts of Buenos Ayres and the Oriental Republic. Members residing at a distance, desirous of taking part in this manifestation, and who may not have access to any of these List-sheets, can obtain them upon application to the Honorary Secretary, David Methven jun., Calle Reconquista 89, who will also be ready to receive any particular subscription towards the same object up to March 15th, prox.

## ON 'CHANGE.

March 6th, 1883

|---|---|
| Cedulas A ............ | 100⅛ |
| Cedulas E ............ | 85⅝ |
| National Bank Shares.... | 106⅞ |
| Municipal Bonds 6 o/o .. | 83½ |

Few operations were reported in the gold market to-day, but brokers state that sovereigns are in steady demand for remittance up rivers. The exchange market rules very flat; several small operations were effected this morning at 49½ and also at 49 5/16. The dullness of the exchange market is becoming the subject of general comment, and many consider it a natural consequence of the limited operations in the produce markets.

Cedulas ruled very active this morning, and operations during official hours exceeded $f200,000. The chief feature of the market is the steady rise and firm rates of Series E for cash, and the relatively weak prices of the Series for the end of the month. Close on 50,000 Series A changed hands for cash at 100⅛-⅛, closing rate; a few thousand were sold for 8th inst. at 100⅛ also. Over 50,000 Series E were sold for cash at firm and rising rates, and 65,000 for the end of the month at 85⅝-⅝, closing rate. Several thousand were sold for the end of April at 85⅞, and for the end of May at 86. Speculation in Cedulas today was much more active than in National Bank Shares, but the activity of the Cedula market is subject to fits and starts; to-day was the first busy day of the month in the stock.

Fourteen thousand new Municipal 6 o/o were sold this morning at 83½ for the 10th inst. and 84 for the end of the month. The Municipality hands these bonds to its bondholders of the 9 o/o stock with a score of overdue coupons at 90 o/o; the stock is selling in the market at rates 6½ and 6 o/o lower than the fiscal value attached by the Corporation. Although the bondholders complain of the heavy difference, they rather sell at a shave than keep the stock. The actual market quotation is higher than that of the Lanus 6 o/o and lower than the Cedulas 6 o/o.

The firm rates of National Bank Shares have given the bulls fresh hopes of seeing the stock at 110; they think that at this rate more activity can be put into the speculation on the plea that the public likes to invest in a rising stock and dreads a fainting one. As a leading bull stated Buenos Airean speculators like to buy dear and sell cheap. The dullness in the share speculation arises from the stationary condition of the market; a sudden fall or rise always leads to an active speculation. Operations at present are limited to a few well-known operators who are unable to throw any fresh elements into the ring. The stock is quoted very firm and prices are advancing in spite of the many damaging rumors set afloat. A member of the Board of Directors of the National Bank has taken the trouble to contradict the statements lately made by a native colleague, but the bearish influences at work insinuate movements more likely to influence the future of the present speculation than any damaging rumor about discounts. Operations during official hours amounted to little. Shares cum dividend are selling at 107⅞, and ex dividend at 103⅛ for the end of [illegible] the month. The difference visible in these prices has led to m[illegible]ny comments at the ring, since operations ex dividen[illegible]d at 103⅛ should represent 103⅛ cum dividend.

Favorable rumors are spread with regard to the new proposal before the Board of the National Bank; it appears that the proposal has every probability of success and that the question will soon be settled.

The sales at the ring were as follows:—

Cedulas—
For cash A 41,850 at 100⅛-¼-⅛
For cash E 56,200 at 85⅝-⅝
For March 8th A 7,000 at 100⅛
For March 31st E 65,000 at 85⅝-⅝-⅝
For April 30th E 20,000 at 85⅞
For May 31st E 10,000 at 86
Sales, 200,050

National Bank Shares—
For cash 110 at 106⅛-⅞
For March 31st 1,350 103-⅛-⅛ ex div.
Do 1,000 at 107⅞-⅞ cum div.
Sales, 2,460

Municipal Bonds 6 o/o—
For March 10th 4,000 at 83½
For March 31st 10,000 at 84
Sales, 14,000

Captain Hairby, Commander of the Maskelyne, was welcomed on 'Change; he went on board again this evening as he has to get 2,400 tons of cargo out, and 2,500 tons in before Sunday which is sharp work enough. Amongst the passengers leaving in the Maskelyne on Sunday are Mr. and Miss Van Deurs, Mr. and Mrs. Crowther and family, Mrs. Lloyd. &c.

The sale announced by telegram, of several leagues of Cordoba camp at 6,000 pats per league is very important, and shows how steadily lands are advancing in the Provinces.

The glorious news of another Railroad inauguration was the talk of the Bolsa on the 15th inst.; the Great Southern Railway opens its Olavarria Branch. Time there was when the whole town would be turned inside out by the inauguration, but we have survived all that, and the opening of a new Railway is now an everyday occurrence. We promise our readers a description of the new line and the town and colonies of Olavarria, as we intend to follow the example of some English ladies at present travelling in the Plate, and make a run down on the top of the cow-catchers, a capital place to take notes of the country &c.

The Inspecting Committee named to go over the accounts of the National Bank and report on the proposed dividend, will send in its report in a few days. It was rumoured on 'Change, we know not with what foundation, that very possibly this Committee will advise the distribution of a smaller dividend than that proposed by the Board of Directors, with a view to increasing the reserve. A general meeting will, however, have to be called, and it will depend on the vote of the meeting. Still we admit that in all probability the meeting will be much influenced by the report of the Committee.

Several parties have arrived recently from England with very respectable capitals with a view to investing in lands. This is a very good sign. Scarcely a day passes that we have not visits from parties who want to buy estancias cheap and stock them.

The National Government has ordered the formation of two Colonies on the Rio Negro; rather good news this.

Mr. Jones, of Chubut, has chartered the Rio Negro, Captain Hansen's vessel; she sails in a few days for Patagones and Chubut.

Messrs. Bullrich & Co., the well-known auctioneers, sold yesterday two square leagues of land, situated near the Laguna Blanca Grande, at the rate of $403,000 % to Mr. E. Etchegaray. Scarcely a week has elapsed since the very same auctioneers put up a few leagues of land up for auction, situated in the district of Azul and thirty leagues nearer town than the Blanca Grande; the upset price fixed on these Azul lands was $500,000 % and not a single bid was made. Nobody in his senses will maintain that lands in Blanca Grande are cheap at $400,000 % when lands can be had in Azul for $500,000 %; the discrepancy is striking.

It is reported that the managing committee of the Riachuelo Port Works intend buying 200 metres frontage on the embankment towards the mouth of the river in order to build ware-houses. The lands that will be probably expropriated for the purpose belong to two leading Argentine capitalists, Messrs. Unzué and Zemborain. The construction of warehouses in the Boca will meet a great want, much felt and increased of late, owing to the arrivals of large steamers with heavy cargoes of merchandise. Merchandise at present is removed in trucks to the large Lanus Deposits.

A project is on foot in the Government House to start a German colony in Mellizas, one of the distant partidos of this Province. The idea is good, and it is to be hoped will soon be carried out. The Hinojo, San Miguel colonies of Olavarria have proved a great success; but strange to say it is rumored that these Russo-German colonists intend leaving the country, when they have paid off all they owe to the Government.

Messrs Moreno & Fernandez, the well-known wine merchants, will soon move into the magnificent premises alongside the *Standard* office, and belonging to Mr M. Guerrico. Messrs Moreno & Fernandez are obliged to move to larger premises owing to the great extension of their business operations; in Patagones, Pringles, Choel-e-Choel and Fuerte Roca, all the wine drunk bears the mark of this enterprising firm.

A well-known French firm has entered the wool-market, and is buying up all the fine wools in the South and North. The demand for fine qualities of wool is very steady, and prices are very firm and rising. 'Artistas' calculate that there are 1,000,000 arr. of wool in deposit, the value of which may be fixed at rates between 50 and 60 %; sheepfarmers are unwilling to let go at such low prices and kept same in deposit; meantime they risk a fall in wool, they lost interest on the money of the wool and will eventually lose.

Twelve thousand Cedulas of Serie E were sold during afterhours at 85⅝ for cash. The rise in the stock is attributed not only to speculative movements but also to good news from Europe.

The great news of the day is the sale of $10,000 worth of Marcos Paz cheese, to be exported to Brazil. Mr. John Invernizzi, a worthy Italian, is the maker of the cheese and the great pioneer of this dairy industry in the Province of Buenos Aires. This is the third large sale of cheese which he has effected for Brazilian account. The cheese tastes likes its prototype from Parma, and is a delicacy which should be found in every home. Mr. Invernizzi is the enterprising founder of this cheese industry, and his splendid exhibits took off the Gold medal at the late Exhibition. An idea of the importance of this embryonic industry may be gathered from the fact that Mr. Invernizzi has four establishments, and at times has 10,000 arrobes or 250,000 lbs. of cheese in deposit. All his butter products are sold on contract to the Confiteria del Gas. The dairy business may yet assume gigantic proportions in this country, but we need more Italians with the energy of Mr. Invernizzi to foster the growth of same. A glance at the dairy figures of the United States may show what development this industry may assume in a country where there are no less than 16 million head of cattle. Mr. Invernizzi deserves a gold medal for the export of his product.

A few hundred shares of the National Bank were sold during afterhours at 103⅛ ex-dividend, and at 108⅛ cum dividend for the end of the month. A few shares were sold for next Saturday at 107⅞. Exchange brokers reported large transactions in exchange for the French mail of the 8th; fair amounts were done in the afternoon at 49⅝ on London, also a few at 49 5/16; bulk of operations were done at ⅜. Francs were freely done at 5.20 on Antwerp, and 5.19 on France. The exchange market shews symptoms of an active revival, and heavy operations are anticipated before the 8th. This sudden change in the market forms a strong contrast to the dullness of operations, which was observed since the reduction of the Bank's rates till this morning.

Freights are quoted very firm, especially for sailing vessels; the demand for small tonnage is very steady and greater than the supply.

The sale of a cargo of salted hides and of tallow from the Colon saladero was announced to-day at reserved rates. The hide market maintains its firm features, and saladeristas complain of the scarcity of fat animals in the Province. Rain is badly wanted all over the Province.

Telegrams from Rosario state that the late heavy downpour in that city was general all over the Province. It has rained also in the Interior, especially in Tucuman; the sugar plantations are in splendid condition. It has rained abundantly also in San Nicolas de los Arroyos.

The fine Italian steamer C. Colombo is expected in port with 500 emigrants from sunny Italy.

Buenos Aires, March 1st, 1883.

MANUEL LAWSON, Agent.

"The Provincial Government of Buenos Aires has bought six square leagues of land in La Plata at the rate of $5,000,000 % per league." Such an announcement would bewilder the public, if the Government had from the very beginning stipulated the intrinsic value of land near La Plata. But the many delays and decrees that have been daily recorded by the newspapers removes the surprise that would otherwise arise at the news of the cost of their expropriation. The Rocha Government has expropriated 9,589 squares—say six leagues—at a cost of $29,806,665 %. The names of the parties expropriated and of the land possessed by them will be found most interesting:—

The above figures are very eloquent; the fortunate proprietors of lands in La Plata were born lucky. Who would have thought in the year 1880 that lands in Tolosa would be worth from $3,000 to 7,000 % per square of 150x150 yards in 1883 and 1882? Rodriguez, Ponce de Leon, Merlo and Iraola little dreamt of the bright prospects that were hidden in the black clouds of the June 1880 revolution.

It is calculated that there are at least ten thousand navvies employed on the extensions of railways in this Republic. These men are paid at the rate of $30 % and more per diem, which gives a total expenditure of—

$ 300,000 % per diem
7,500,000 % per month
90,000,000 % per annum.

These ten thousand navvies are nearly all emigrants, and we may conclude therefrom that they remit half their earnings to their families and relatives in Europe—say $45,000,000 %. This means an efflux of $f1,800,000 or £369,000 stg. of specie per annum out of the country. The remittances made by Basques and Italians of this city through the private banks are very large. The London and River Plate Bank was thronged this week with Basques who were remitting the savings from their wages in La Plata.

The Provincial Bank discounted yesterday six millions currency, and the National Bank $f120,000—in all nine millions currency.

## "PLOUGHS"

"PLOUGHS" "PLOUGHS"
Messrs M. Forrester & Co.
Beg to announce to the Public that they have lately introduced into this country with great success the
Celebrated Two and Three Furrow Ploughs
OF
Messrs. HOWARD
ENGLAND

These WROUGHT IRON PLOUGHS fitted with breasts and shares of steel, have been extensively used in the Provinces and are destined to supersede the light and flimsy wood implements made by the Americans.
By means of a simple hand lever the onward movement of the animals raises the plough out of work at the ends, thus saving the driver the usual hard lifting connected with ploughing.
The two Furrow Plough is drawn by a pair of bullocks, thus doing double the work of a single plough and still with only one man.
These "Multiple" Ploughs are now almost universally employed in Australia and South Africa, and in recommending these implements Messrs. Forrester & Co feel confident that they are well adapted to the requirements of the Plate.
In order to procure these Ploughs orders should be sent in at once, or disappointment may be incurred.

El Domingo 25 de Marzo

A las 12 del dia

Venderemos por cuenta y orden de su propietario el Dr D Felipe Rufino y por completa liquidacion, las haciendas todas del establecimiento 9 de Julio, situado en el Partido de Alvear, a 8½ leguas de la estacion Las Flores Ferro Carril del Sud donde habra carruajes para la concurrencia.

Las ovejas y vacas que ofrecemos, asi como los caballos y yeguas son de clases muy finas y su actual propietario las vende solo por ausentarse del pais.

El remate de las vacas, caballos y yeguas se hara en lotes al gusto de los señores interesados y el de las ovejas sera como de costumbre, por majadas completas con sus dotaciones de riquisimos padres.

Llamamos la atencion de los Señores criadores muy particularmente sobre las vacas—pues garantimos que no se han vendido novillos. Pedimos a los señores interesados inspeccionen las haciendas, pues aseguramos un magnifico estado.

Tambien venderemos 20 bueyes muy mansos, 30 vacas lecheras, arados, maquinas de cortar pasto, rastrillos y demas utiles del Establecimiento.

Para ver los animales y el campo debe tomarse el Ferro Carril del Sud hasta la estacion Las Flores, haciendose el resto del viaje en carruaje. La Estancia 9 de Julio dista solo 8½ leguas de la estacion.

Importante Nota

Estamos autorizados para escuchar ofertas sobre el arriendo del Establecimiento compuesto de 6 leguas de rico campo.

La Estancia que se ofrece se llama 9 de Julio dista solo 3½ del pueblo del Saladillo y 8 de la estacion Las Flores, Ferro Carril del Sud. La distancia que hay de la ciudad es solo de 36 leguas y podra dentro de un mes estar a solo 3 leguas del Ferro Carril del Oeste (nueva via del Saladillo).

Tiene la estancia un esplendido edificio lleno de comodidades 30 puestos—3 costados del campo alambrados; 4 magnificas aguadas. El arroyo Las Flores en una cabecera. El San Miguel en el centro y las lagunas La Pastora y Espadaña.

El contrato se hara por 7 años.

Las condiciones particulares del negocio se estipularan despues de oidas las ofertas.

Por cualquier otro dato à nuestra casa, San Martin 51.

El Jueves 15 de Marzo

A las 2 p.m.

Remataremos a la mas alta postura y sin limitacion de ninguna clase, los mas afamados campos de la Provincia de Santa Fe conocidos por Loreto distantes unicamente 25 leguas de Pergamino, 6 de la colonia Iriondo, 10 de la colonia Alvear (La Teodolina) 13 de la Estacion Tortugas del Ferro Carril Central Argentino, 16 de la Cañada de Gomez, Estacion del mismo Ferro Carril y entre el Ferro Carril Clark, el proyectado ramal del F. C. desde el Pergamino al Rio 4° y el Oeste santafesino. Estos campos lindan con los famosos y conocidos del Venado Tuerto, estancias, como la de los Sres Ostendorp y Diego Alvear, heredero de Armstrong y otros.

Los campos que acaba de vender el Gobierno de la Provincia a 400,000 $m/c estan mas distantes de la Capital que estos que ofrecemos en venta.

Ademas con la rapidez que se estienden los Ferro Carriles y ramales en la Republica demuestran claramente que en un tiempo la poblacion va a estenderse en los alrededores y entonces toda la propiedad tiene que triplicar en valor, de modo que cuando llegue a venderse el ultimo pie el comprador se encontrara con una ganancia.

La calidad del campo se garante a igual que Venado Tuerto por lo tanto creemos inutil entrar en mayores descripciones sobre el valor de los pastos etc, ademas la persona que quiera ver y examinarlo puede tomar la Galera que

va del Pergamino al Hinojo ocurriendo por la pasage gratis al Sr D. Eduardo Casey Reconquista num. 80.

El campo sera dividido en lotes de ½ (media) legua teniendo el comprador el derecho de tomar cuatro leguas por el mismo precio.

Todos los lotes seran vendidos sin reserva de ninguna clase al mas alto postor y el pago se hara una cuarta parte al contado y el resto en cuatro anualidades con el 7 o/o de interes. Los planos de estos campos podran obtenerse del 20 del corriente Febrero en adelante ocurriendo a casa del Sr D. Eduardo Casey num. 80, o a nuestra casa Alsina 78.

NOTA—No olvidarse que el remate se efectuara aqui en la Capital Calle Alsina 78.

OTRA NOTA IMPORTANTE—En caso que varios compren un lote, se les escriturará separadamente á cada comprador hasta cien cuadras.

Remataremos a la mas alta postura y dinero de contado, por orden terminante de su dueño, los campos arriba mencionados, situados en las Secciones III y IX de territorios Nacionales letras D. y C. numeros 11, 16 y 20.

El area total se compone de 10 leguas kilometricas, que pueden facilmente dividirse en 2 fracciones, una de 4 y la otra de 6 leguas y si los interesados los desean en lotes de dos leguas.

Esta seccion es una de la mas pobladas, debido a la bondad de sus pastos y calidad de sus tierras, adecuados para la cria del ganado vacuno y lanar.

Esta campo disto 3 leguas del pueblo General Acha, donde existen fuerzas Nacionales, y debido es la importancia que tiene la inmediacion de un pueblo en estos alturas para que entremos aqui a demostrario.

Al costado mismo este un Establecimiento, parte alambrado, del Sr. D Augusto Escenty, poblado por el señor Capdeville, con 2,500 vacas, 500 yeguas, y 3000 ovejas y los otros linderos son:

Augusto Escandy, Simon, Obligado, Hurtado y Martinez A. Meabe y otros.

SECCION 1° LOTE N. 21 de la fraccion B linda por el Oeste con campos del conocido commerciante Sr D R J Runciman al Norte con el Sr S. Ross Duffield, gerente del nuevo Banco Ingles, al Este con el Sr. D Emilio Furt y al Sud con el Sr D. J. R. Brooks. La candidad del campo es sobresaliente, con aguada permanente, arboles en el mismo campo. Se presta admirablemente para la cria de ganado vacuno y lanar por tener mucho pasts tierno trevolares etc.

LOTE num. 2 de lo fraccion D lindando por el Oeste y Sud con campos del Sr D. Eduardo Casey, al Norte con el Sr. D Marcelino Ugarte y al Este con el Sr. D. J. Allan es en un todo, igual al lote anterior, magnificos montes y mucho pasto fino.

Estas dos fracciones se venderan en fracciones de una legua y al gusto de los compradores.

SECCION 7° LOTES num. 6 y 15 de la fraccion B lindan con la seccion 1° con los Srs Eujenio Mataldi, Juan Penes, otras personas conocidas. La calidad de estos campos es excelente, aproposito para la cria de toda clase de ganado.

Todos estos campos no estan muy distantes de los que el Gobierno de la Provincia acaba de vender en la Seccion XII a razon de 480,000 $m/c la legua.

La poblacion se esta extendiendo rapidamente hacia este lado y con los Ferros Carriles ya en construccion van a tomar muy pronto un valor incalculable.

Used by thousands for making wholesome Bread, Cakes, Flour-Puddings, &c. Sold in 1d & 2d. packets and 6d. & 1s. boxes, by all Storekeepers and Grocers.

Invaluable at the Diggings and in the Rush, also on board Ship, as small loaves of the best Bread or Scones can be made in a few minutes without the aid of Yeast.

Private Ward, during the Zulu war, writes:—"I should just like you to see the real farmhouse bread that I bake! The oven is one dug in the ground, and is just large enough to hold our daily quantum of two loaves. We use flour, water, salt, and BORWICK'S BAKING POWDER. My bread often surprises me, it is so light, and white as snow. Some of our men will insist that I have been 'in the trade,' and nothing I can say will convince them to the contrary."

Dr J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

**IS THE ORIGINAL AND ONLY GENUINE.**

CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regret ted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr Browne's—*See Times,* July 12th 1864.

The Public, therefore, are cautioned against using any other than

**Dr J. Collis Browne's Chlorodyne.**

**REMEDIAL USES AND ACTION.**

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests too often fatal diseases Diphtheria Fever, Crup, Ague.

CHLORODYNE acts like a charming Diarrhoea, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London.—"Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR. COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhoea, and Dysentery, Spasms, Cramps, Neuralgia, the Vomitting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."

CAUTION—None genuine without the words 'Dr J. Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
